Haugen Consulting LLC, a leading independent demurrage consulting firm, is pleased to announce that over 250 cases recapped in **The TANKVOYager** since 1995 are now accessible in our fully searchable **Online Archive**. The key maritime disputes archived include U.S. and English awards pertaining to laytime and demurrage, cargo claims, off-hire, detention, deadfreight, time charter performance, time-bar and more which are searchable on key words and phrases.

The archive is updated quarterly and serves as a useful tool when searching on specific types of disputed issues. The results page returns all awards containing the specified key words or phrases highlighted in **red font** (similar to a Google search) which makes scanning the document for applicable content very easy. Another helpful feature is that the query results page captures the keynotes and first five lines of each recap further expediting the research process.

"The purpose of reasoned decisions and published awards is to give guidance to parties in the chartering and operational sectors of the industry. Prior decisions should assist in clarifying and/or standardizing contract clauses." [Bow Spring, SMA No. 3582]
